

Trading Outside of Time

The seer and I were scheduled for a podcast with Spirit Centered Business host Bralynn Newby. Lydia (our heavenly Business Advisor) joined us and instructed us about the upcoming podcast. Heaven had downloaded insights into Commerce for Sons and Daughters of God which we shared at the initial podcast and ended that conversation with the statement, “And we haven’t even talked about trading outside of time,” (See the Preface). We were about to gain some insights into that with this engagement.

Lydia said, “Talk about the practical components of operating from Heaven down with this audience. Start with talking about how from Heaven down, those in Heaven (men and women in white, angels, and others), are primed and ready, they have already accepted assignments from the Father in the realms of Heaven—the eternal realms, so they are just waiting on those on the earth. They are not twiddling their thumbs waiting, but they are waiting for any who will come and shrug off religious paradigms that prevent the access of heavenly revelation.

“As you know it is a combination of belief that you have an invitation to trade from Heaven down to engage Heaven's input for your trade, to access hidden wealth, wisdom, functionality, creativity, and nuances of relational ideas that come from Heaven that are quite easy to follow through on from earth.

“Start with talking about operating from Heaven down once you have documentation (your Declaration of Trade and the Deed of Commerce and Trade), and a beginning relationship with those assigned to you from Heaven for your business/ministry. Heaven is always ready.”

Lydia said, “We are quite ready to do this. Heaven is waiting on you. They are waiting for those who bravely launch and try.

“For example, when your child/grandchild is learning to walk, and they fall over after 2 toddling steps. You do not get upset if they fall. You are excited that they are trying.”

Lydia said, “We are fully invested in your toddling steps. We are primed to help you. We are never disappointed. We are happy with your effort, and your desire to understand this way of doing business from Heaven down. This is the way it has always been meant to be with the sons and daughters of God.

“Heaven has so much to share, and all Heaven has to share comes from Father.

*Everything Heaven shares
comes from the vast warehouses
of the Fathers' ability, creativity, provision, etc.*

Since Father is always creating himself, then Heaven wants to help His sons and daughters with the new.

“Heaven may not necessarily be going to talk to you about the old. They will talk about what can be and what should be. God’s people and Heaven creating the future together is one of the plans of the Father. Doing this from trade—which is taking something and multiplying it is ideally suited for this.

“Know that the enemy wants to corrupt what you have determined to believe. Until The Day the corruption of his character will remain. He will operate from the corruption of his character until then.

The child of God focused on Heaven does not have time to worry about Satan’s mess because we are so engaged in putting into practice and operating from the design of Heaven.

Some call these the blueprints of Heaven. Some call these the will of Heaven. Some call them the negotiations of Heavenly realms through the portals which are the sons and daughters of God so, that the earth becomes a reflection of Heaven. This is the plan of the Father and these plans do NOT fail.”

The Fabric of Time

At that point I asked a question of Lydia saying, “Yesterday, The seer reached back in time and pulled something forward. Is that how some inventions were ahead of their time, can these things now be pulled into this present day so they can be actualized now?”

Lydia responded saying, “Time is like fabric and malleable from the spirit realm. When you step into spiritual places the time fabric is different. It does not move or sway like you are accustomed to on earth. It is unsettling at first to recognize that...”

*From eternal realms -
all things are possible*

“So, the reaching back in time, reaching forward in time, bringing time together, or the melding of time is possible here. Of course, it would be, but you must learn not to be freaked out by this.

*Discipline the soul
to receive that this is possible.*

“Don't consider it odd or off limits because it is not!”

Access has been granted.

Lydia asked, “How will sons and daughters of God grow in these things if they do not come here and try? If they do not embrace what manner of depth, that exists in heavenly places.

*I will tell you a motivator -
your enemy and principalities and
powers of darkness have been trying to do this for a long time."*

"When you understand that those who are trying to operate in the occult, which is illegal access to Heavenly realms, illegal access to what God has reserved for sons and daughters of the King. If they value it enough to try to steal it, it must be valuable."

The seer noted, "So, why are we not trying to come in and understand how time works or lack of time, or how time is malleable in different dimensions? We should absolutely understand that our Father created it all. He created the eternal realm, which is the 'not time' realm. And he created the time realm for sons and daughters of God.

We are like Jesus in this and can operate in and out of time.

This should not be a surprise. It should really not freak us out, and if it does, we are still trapped by religious paradigms."

Lydia continued, "Religion will keep you from your inheritance. The religious find their comfort in ritual. The spirit of religion behind religiousness is wicked because it wants to box in and prevent access to all that the Father has made available to His sons and daughters.

It is the Father's good pleasure to give you the Kingdom. (Luke 12:32)

"This verse is the invitation - the proof text of the Father's willingness to work with those who will step into heavenly realms by faith, with belief and trade from there.

*Abraham did this.
He traded out of time!*

"He traded out of time for the purpose of the heir. His request was so firm, and he was so firm in his understanding that even as a man of time he could wait inside of time for the fulfillment.

"What you see in his life's story are the interruptions of demonic temptations and his struggle to remain firm in faith regarding the trade that he knew he had made. He knew this trade was not initiated by Abraham—this trade was initiated by Heaven."

Trading Outside of Time

We asked, "So how do we trade outside of time?"

*First understand that faith
is the currency of the trade.*

“The trade is spirit. It is eternal—outside the dimension of time so, therefore it is eternal—it is spiritual. It is outside of the dimension of the 3D plane. It must be engaged in by your spirit. Your soul cannot trade outside of time. It cannot trade with Heaven. Your spirit trades with Heaven. Your soul cannot be involved.

*All things transfer **through** the spirit realm using the currency of
faith
for the manifestation of what you have believed for.*

“Attempts have been made in some areas that were very infantile, but notice Heaven is not upset with those who tried. Some simply ran ahead without wisdom. They ran ahead without understanding. They ran ahead without counsel and were not even yet crawling. They were still infants lying on their back.

“But just because the attempts were infantile, Heaven does not close the door to it. The access is still open. It has just been a momentary need for the Body of Christ to have time to mature and come alongside.

“After that was the understanding of the will of Heaven and the will of the King and the will of the Kingdom and the reminder that you are as righteous sons and daughters of God in Jesus Christ, you are to seek first that Kingdom, that Kings’ domain, the Kings realm and the Kingdom inside the King’s realm and the King inside.

*Inside the Kings realm
is the Kings heart.*

“You must mature and learn the ways of this Kings’ realm.

“Unrighteous activity, deeds of darkness, and manipulation (being motivated by control to rule over others by way of gaining identity) is not the Kings way.

“When you seek to grow up in this area Holy Spirit is the teacher and counselor. The need of the son or daughter of God is to pay attention and be willing to surrender and be schooled by the Spirit of God within.

*Trouble happens when the
unction of Holy Spirit is ignored.*

“And when all the signs are being displayed by the hands of angels to assist the saint in remaining free of temptation and in the will of Heaven is ignored. This is when trouble for the saint begins. The grace of

Heaven comes into play at the point of repentance, for that son or daughter is never lost to the Father being in the covenant blood of Jesus, but the blessing may be lost until repentance is sought and you gain a willingness to play out the role that you have been given and not another's role.

“For example, the son is not the father, the father is the father.

*Corruption comes when the son
tries to be the father.*

You can take this either from natural or spiritual understandings. The same is true.”

Frustration with World Systems

Lydia continued, “I will speak to the sons and daughters who have a deep current riding within them that causes their frustration with world systems. These who are aware of the intensity of the dissatisfaction with world systems, to these very sons and daughters of God is given the invitation to bring forth what Heaven has as the alternative to world systems.

*Do not expect the world system
to run to your door when you are bringing something from Heaven.*

“A lot of spiritual establishment has to take place before those who have been lured by world systems will turn their face to encounter the jewel that you have mined from Heaven and are now presenting as an alternative.

“Yet, there are many names on many scrolls that *are* embracing the jewel you have mined from Heaven. Your stewardship of that jewel will be not to expect the world systems to give you honor or recognition for it, for those remain for you in heavenly places.

*Some of this is a surrendering to the point of willingness to turn one
is back on world systems and their measured ranking of
recognition.*

“Yet, Lydia says (with some satisfaction on her face), there are scrolls written about this in Heaven that have already been opened and are being read by us here in eternal realms and now our true excitement grows! This new opening of intensity for the sons and daughters of God to throw off shackles of identity from world systems, forsaking that for what has been stored up in heavenly places for them outside of time.

To these sons and daughters are given the invitation to bring forth what Heaven has as the alternative to world systems.

She said, “You have a saying – ‘If one life is changed it is worth the doing.’ Equate this to the scripture where it says Jesus would leave the ninety-nine to find the one sheep, not lost as in salvation, but lost as in having lost its path to be shepherded by the good shepherd.

Jesus was making trade by being a shepherd.

“And he does it well. He does it with excellence.

She asked, “Do you see the new measuring of what you would deem or term success?”

“Do you see the new measuring of Heaven has to be engaged once again.

The soul is not suited for this, but the spirit is because it has capacity to gain spirit knowledge.

This is a satisfaction of the spirit of a man or woman.

All things are not profitable, but all things are possible.

*Discernment from your oneness with the Spirit of the Lord and all His seven refractions¹ **will equate** to Heaven’s success through your portal.*

Lydia said, “I will tell you of a pitfall—that is where you measure by emotional terms from the soul realm that which should be measured by the spirit. This sets a disharmony and dissonance within the vessel—the body of the person. It is simply because the soul is trying to do the job of the spirit, or the soul is out of alignment where life from the inner man should triumph even over life from the soul. Is this not the final triumph?”

.....

¹ Referring to the Seven Spirits of God found in Isaiah 11:2.

Trading on Ungodly Bonds

We had been asking about a current global crisis and Eric (a man in white who was tutoring us) said, The realm of darkness is engaged in ungodly bonds, and they are trading on them. Some ungodly bonds come from soulish actions of people, others from the courts of hell, and still others from galactic interference.”

He said, “Imagine an entity—a galactic beings who is trading on the power of how many ungodly bonds they have released against the sons of God.”

“How does that work,” we asked?

He said, “They don't receive power directly from the person they have put the bond on. That realm has a sort of scale that gives them knowledge of that. They can tell. So, searching out the counsels of hell, searching out legalities, like the bond can be, iniquities in the bloodlines and things like that. The searching out of that to continue to put the bonds on the living is the work of darkness and these galactic beings get recognized for however many ungodly bonds are successfully applied. This is what makes the courtrooms of Heaven revelation so imperative for the sons of God to realize they have access to remove the legal grounds, because the enemy is using the legal grounds against the saints. And that realm is somehow able to recognize those who have studied and found loopholes and devious ways to even trip the saints up so that they can bring charges and have legal grounds to then implant an ungodly bond.”

I had a question, “Is it the volume of the bond plus the value of the person? Is that a component in there?”

He replied, “The power that came, (not the power of the person), but like you would gain ungodly power out of the ability to affect the numbers of people that the ungodly bond would impact. That power could be applied and works generationally through a number of the people living on the earth. So, let us say you have a person in India and an ungodly bond is loosed against a man a community, however many places that his life touches that is going to exponentially increase. So, to afflict a man who has a lot of sway in a community would grant the being more power. The more influence, the more power derived from placing the ungodly bond. It would be important to trip up major leader in the Body of Christ.

“Sphere of influence, following (that would be sphere of influence) and even family lines. So, imagine Celebrity A marries Celebrity B and the influence of that one celebrity to the other it cross-germinates so influence is multiplied. They would get more brownie points for that kind of big score.

Eric began speaking of height and depth. We wondered what that meant.

He explained, “The height of a person's status and the width of their reach, but don't let that confuse you that the councils of hell are not also searching out the grandmother who prays in her house constantly and has little influence or power. They work to stop both.

“Imagine a grandmother like that praying in her from her living room but operating in the courts to remove the bonds not only from herself but from others, what a powerhouse she is; what a hidden fire she is.”

I asked, “Are there different levels of bonds?” We had a sense that the bonds that were on the galactic level were on a different plane than the bonds we have been dealing with typically.

“We have dealt with the demonic principalities and powers, but on occasion we end up dealing with galactic entities or a galactic prince. They are the ones responsible for the high-tech tracking devices that are not your average run of the mill tracking devices. They have a bond that seemed to go on a different level. That was the inference to us. We had been coming across that fairly often.”

The seer said, “Eric, I’m just going to ask you to speak to that and let me hear what you’re saying.”

We moved to a classroom. This would fall into the category of other realms-bonds from other realms and Eric says, “This is the essence of the dirty trade and the other realm beings are interested in working with spirits assigned against the earth. So, the galactic beings do not want to get their hands dirty, so they are working like hidden slave masters behind the curtain, and they are employing. So, my sense of this is these beings are separate from your low-level demons. But they feel more intelligent. So, you have your low-level demon who works for a boss, right? That boss works for a boss. All right? Those are all earthbound earth realm evil beings. But the beings behind the curtain are these galactic beings that are employing the bosses that work the demons as slaves. It is like that.

The intensity level of the evil here is increased exponentially. It is vastly increased, and these evil beings have divided themselves into leagues and there is a great competition among these leagues to gain influence and power in the running of the evil realm, the evil spirit/low level demons.

Prince Pretenders

For instance, a low-level demon manages to trip up a person of profound influence. Then he brings that to the boss and that boss brings it to his boss. The earth-realm principality boss then takes that to the galactic being. The galactic being somehow (since that is in his realm), his league is empowered by that trade and that translates that he now has more status against the other leagues. They are prince pretenders.

I asked, “Do they have another title?”

He replied, “Princes of the power of the air.”

I asked, “Do we go about removing these bonds in the same way or is there a different location for those records?”

The reply, “You are going to need greater access for that.”

We asked, “Is that a key we need? Is that a badge we need? Can we request it, or do we have to apply for it? What?”

The seer said, “I see a box. I do not see a key. I do not see that we have been granted access to that. Is it like that?”

He replied, “It has to do with timing.”

“So, if we run into this just keep doing the bond severance the way we've been taught?”

“Yes,” Eric replied. “The bond severance that we've been taught. the spread of it and the use of it by the saints, the especially the use of it over cities is so young still that it needs to have time to grow, and we must have more embracing of this revelation by the saints. We must have more engagement of the severance of bonds. Remember individual, family, city, nations, it has to mushroom. It must grow. It must be more seeded into the earth realm. As we do that, the gained power of these prince pretenders. The power they have been given is redeemed. There will come a day where the next level of bond severance is open to the saints, but that has not happened yet.”

And he says again, “Don't think it's a linear thing, just work so that you're approved as a good workman and can continue in the task until that day.”

We thanked Eric for his tutelage, and he left.

Transition of Trade

The seer remarked, “Why am I seeing a ship? I am just seeing this big giant ship. Eric is gone so; we are going to have to go back to the Help Desk. The ship is a trade route. I see this large ship, it has sails. It looks like it is Phoenician and so, as this asking the Holy Spirit, ‘Why are we seeing this?’ And he says, “Because what we are undergoing in the current day is a transition of trade. The populations of the earth right now due to Corona Virus are undergoing through duress, a transition of trade.

The seer said, “Let us go to help desk for a second. Is there someone to talk to me about the current trade transition?”

Asked by someone at the Help Desk if she had seen the shipped, The seer replied, “Yes.”

A person in white came forth whose name we were not given. The seer asked, “Can you give me your title or how is it that I've come to talk to you?”

The tutor explained that he operates in the merchant area of the Business Complex.

She asked, “Can you explain to me why I'm seeing a vision of a ship?”

Holy Spirit said, “This is in reference to transition of trade.”

The seer remarked, “I need the elementary version.”

The tutor explained, “So nations are created to trade. Their population within the nations itself is created to trade on many levels of trading. The unseen realm works through trade as well. The profaning of trade was sin and when you profane trade at certain levels it corrupts purpose and destiny. Trade routes are being traded in galactic areas right now.”

The seer remarked, “So I heard you say that the trade routes themselves are up for auction.”

“Yes,” he replied, “in the earth.”

The seer continued, “That is why we are experiencing this?”

The tutor said, “You are experiencing this.”

The seer asked, “Did Corona virus start this?”

The tutor replied, “Corona virus is being used as a tool to implement this. This is against the will of the Father and outside of the timing. Satan is trying to change times and seasons.”

The seer asked, “So do trade routes and all their many dimensions are they synced with the time of the Lord?”

“Yes,” was the reply.

Holy spirit said, “This was like the days of Nebuchad-nezzar.”

She asked, “Can you explain that?”

Holy Spirit said, “Nebuchadnezzar had reached a pinnacle point in the control of trade which began to corrupt him and for which he paid dearly. This was related to Babylon. It was premature.

Nebuchadnezzar was like a pawn to galactic entities trying to make trade route changes that had not been approved by Yahweh.”

The seer remarked, “This just bends your mind.”

Holy Spirit said, “You would have to look between the lines to see this in scripture, but it is there. Remember the statute that Daniel saw. Each of those markers of time were other attempts at violation of trade routes and they are trading off their bluffing. Like at a poker table, when you say, ‘I have this and the other guy says, maybe you do.’ It is like that. It is not a pleasant honest activity that they hope to engage in one day. These beings will use humans or spirits. They will use the interplay of their spirit realm society’s maneuverings. They have been doing this since ancient times.”

The seer asked, “What is their goal?”

He replied, “Their goal is the earth and to dominate humanity.”

The seer remarked, “This will make you just let go of all your little silly religious stuff, won't it?”

I asked, “Who is teaching us? Can we know your name?”

We were told, “Osirus².”

² Osirus is a man in white who assisted in this engagement.
