## Directive #2:

Again, during my journaling time, I received a further directive:

- *Keep encroaching on enemy territory.*
- *Keep pushing.*
- *Don't give him the satisfaction of victory for you are the overcomer.*
- *Gain new initiatives so you and the ministry can move forward in greater ways.*
- *Press, when pressed.*
- *Move forward when resisted.*
- *Invoke angelic assistance – your angels and others angels and don't back down.*

.....

- Call an end to the foolishness of the governors who wish to impede or not cooperate with the President-Elect. They don't even know at this stage what he might do, but he and his team are gaining momentum. The other side is still reeling from the election loss last week. A loss that is not yet fully realized. Victory is still being set in motion for the Republican side.
- Don't get lazy.
- Remind the sons of the directives from last week. [Appoint someone to stay abreast of things in Washington and]
- Spearhead efforts to deal with the accusations and false verdicts being released so they fall to the ground and die not having accomplished what the workers of darkness intended, but they were countermanded by the saints. That's one of the ways the saints must govern.
  - Countermand efforts of darkness.
  - Revoke their right to succeed.
  - Revoke their right to bear fruit in any fashion, at anytime, on any level, in any place, time, realm, or dimension.

The arising of the sons is forthcoming.

- Help lead the charge.
- Call for the blinders to come off of the eyes of those still supporting positions that are anti-God and against the purposes I have for this nation I have much that I want to do that will bless the nations of the earth,
- The sons must prepare the way.
- They must raise the standard and bear it forth.

- I will do wonders in the economy next year to alleviate the burden on the people.
- I will cause new resolves to come forth that will fully establish those seeking to honor my name.
- Remember to uplift those in leadership so they respond appropriately to my instructions and directives. Move, move, move ahead – without delay!
