LifeSpring School of Ministry

Raising Leaders to Impact Nations

Overview

The LifeSpring School of Ministry offers a comprehensive trimester program designed to empower students with profound spiritual insights and practical heavenly protocols to effect change on an individual and global scale.

Trimester 1 introduces participants to a transformative journey focused on cleansing generational ties and embracing Heaven's freedom. It equips students with spiritual tools to cleanse themselves and their generations.

In Trimester 2, the curriculum shifts to the protocols of the various Courts of Heaven. Students explore the spiritual judiciary processes that enable believers to bring heavenly justice into earthly situations. Trimester 3 expands further on protocols of the Courts of Heaven bringing students deeper into the revelation of various courts to bring people into freedom.

The Impacting Nations track teaches students to impact nations through the Courts of Heaven. This advanced segment delves into engaging heavenly realms for broader societal influence. Students may enroll in the various Trimesters as needed, provided they have completed the pre-requisite Trimesters or courses.

The Heaven Down business track teaches building your business from Heaven Down, a business strategy to help grow Kingdom businesses.

The Health and Wholeness track will focus on using the Courts of Healing and the Healing Gardens as well as working with our realms to experience healing, even from trauma, PTSD, SRA, and DID. Wholeness is our possession.

Each trimester builds on the last, forming a robust curriculum that guides students in becoming effective intercessors and Kingdom influencers capable of bringing divine order and blessings into their environments. Each Trimester is approximately 14 weeks in length. The LifeSpring School of Ministry is committed to raising leaders who understand and utilize the power of the heavenly courts to manifest God's will on earth as it is in Heaven. Students may enroll in the various Trimesters as needed, provided they have completed the pre-requisite Trimesters or courses.

Completing Trimesters 1-3, along with the required Student Observer sessions, can qualify students to be considered for the Junior Advocacy program and eventual promotion to become Senior Advocates.

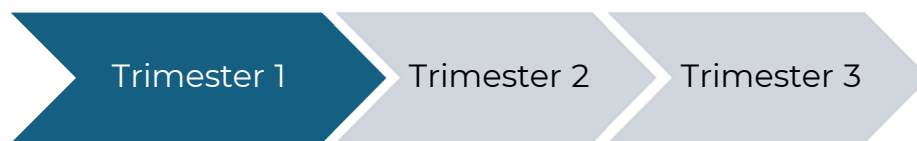

Completion of Trimesters 1-3 plus the Heaven Down™ Business Module can qualify a student to work with the Heaven Down™ Business aspect of LifeSpring as an Activator.

The Concept

As a revision of the CourtsNet Facilitator Training Program that has run for five years with the goal of raising advocates to work with clients in the Courts of Heaven, the LifeSpring School of Ministry is a refining of that work. It will be divided into trimesters, each with a particular focus.

We have seen a need to assist people with cleansing their own lives and bloodlines. The first Trimester will be focused on resolving that need for our students. The second Trimester will be focused on the Courts of Heaven protocols for several of the most common courts we deal with. The third trimester will deal with advanced Courts of Heaven protocols. Additional trimesters will focus on other arenas of ministry.

Using a combination of live teaching and recorded classes accompanied by a facilitator, we foresee this being a year-round program with overlapping classes. Once Trimester 1 ends, Trimester 2 will begin, but also Trimester 1 will begin for the next round of students.

Once the first class has completed Trimester 1, Trimester 2 will begin. As Trimester 2 begins for the Round 1 students, A second round of students will begin with Trimester 1. After Round 1 students complete Trimester 2 classes, Trimester 3 will begin. The second round of students, having completed Trimester 1, will progress to the Round 2 Trimester 2 classes. This pattern continues where we will have three rounds of students in a given year. Round 1 students will graduate at the end of their Trimester 3, while the second round of students will graduate at the end of the next Trimester, and so on.

Using facilitators to open the weekly classes and handle housecleaning duties. Then, they will begin the video training for that week and close with a question-and-answer time and instructions for the week.

This will allow qualified teachers to speak in their area of expertise and create course recordings that can be reused for the various national schools we have.

Facilitators will be paid to oversee their Trimester classes. They will be responsible for class attendance, working with students to grade their assignments, and conducting Q&A sessions in each class. They will essentially serve as Headmasters for that set of Trimesters.

Prior graduates of the FTP program can enroll in any of the advanced tracks when they become available.

This approach should allow us to open several schools simultaneously in various nations.
